

Indoor Touch Dimmer Instructions

① Identify the location to mount the touch dimmer. Clean the area with the alcohol swab provided.

② Be sure to install the dimmer before the first light strip.

③ Connect the dimmer to the

power supply and the blue light should come on.
*****If the blue light does not come on, install the twisted connector cable between the power supply and the touch dimmer.**

④ Remove the double back tape and adhere the touch dimmer to the underside of the cabinet.

⑤ Touch and release to turn the lights on and off.

⑥ Touch and hold to dim the lights up and down.

⑦ To retain same light brightness, press and hold until lights turn on.
